

Elomatic is a leading Scandinavian consulting and engineering company. More than 600 Elomatic engineering professionals work in our four business units: Life Science, Marine, Paper & Mechanical, and Cadmatic. We have six offices in Finland, one in Sweden, Russia and China as well as a joint venture both in India and Poland.

Just now we are seeking for our Life Science unit in our Turku office:

Software Engineer - Design Applications

You will take part in software development, maintenance and definition tasks in our development and customer projects. Our products and solutions are applications for industrial production. We require practical programming skills (VB, C++, .NET, Java), practical know-how of general commercial databases and a genuine interest in design application work. We value object-oriented programming and user interface development know-how, perseverance, flexibility and an applicable polytechnic or university degree.

For more information please contact Hannu Kaitila, tel. 0400-520510 hannu.kaitila@elomatic.com or Jussi Soininen, tel. 040-5577246, jussi.soininen@elomatic.com.

Apply for the position as soon as possible by completing the on-line application and attaching your cv at www.elomatic.com/jobs
